<u>Amendment</u>

Sir:

This amendment is filed in response to the Office Action dated 16 October

2003 issued by the USPTO in connection with the above-identified patent application. 00000004 090468 10091934. The listing of claims begins on page 2 of this paper.

914 945 4073 TO 917038729305 She b.te

184 S3 . OH 13:11 EK 00-184 KOSKLOMA

an optional step described in steps 16 and 17 (column 20, lines 10 – 14 and 18 – 26), Fig. 5 and item 712 of figure 7 (column 22, lines 38 – 38). Dangelo et al. further discusses wire delays in items 808 and 812 of Fig. 8 (column 23, lines 23 – 42 and 52 – 61). Dangelo et al. describes very rough and approximate wiring effects considerations sufficient for 1994, but it does not discuss, and is not even aware of, the need to address critical on-chip interconnects using transmission line topologies. Thus Dangelo et al. does not suggest or teach the "designing one or more transmission line topologies"; it has no incentive to.

Claims 26 and 27 were rejected under 35 U.S.C. 103(a) as being unpatentable over Dangelo in view of Chang. In view of the declaration filed under 37 CFR 1.131, applicants respectfully believe that these rejections are moot as well.

Applicants believe that the above amendments and remarks are fully responsive to all the objections and grounds of rejections by the examiner. In view of the foregoing amendments and remarks, the applicants respectfully submit that all the pending claims are deemed to be allowable. Their favorable reconsideration and allowance is respectfully requested.

Should the Examiner have any question or comment as to the form, content or entry of this Amendment, the Examiner is requested to contact the undersigned at the telephone number below. Similarly, if there are any further issues yet to be resolved to advance the prosecution of this application to issue, the Examiner is requested to telephone the undersigned counsel.

Please charge any fee associated with this paper to deposit account No. 09-0468.

Respectfully submitted.
